

## MINE STAR XL - Especificaciones técnicas

### Description

MINE STAR XL es un neumático de estructura diagonal especialmente idóneo para cargadoras LHD en las operaciones subterráneas de carga y de transporte. El diseño ancho de la banda de rodadura con los tacos abiertos evita la retención de piedras y proporciona una tracción excepcional. La huella más ancha hace de MINE STAR XL su mejor aliado para operaciones de minería subterránea de servicio pesado. MINE STAR XL ha sido realizado con una mezcla especial de la banda de rodadura que proporciona una extraordinaria resistencia a los cortes y los desgarros, asegurando una mayor eficiencia operativa, así como un ciclo de vida prolongado del neumático con menores tiempos de parada de la máquina.
