

## MAGLIFT - Scheda tecnica

### Description

MAGLIFT è stato particolarmente progettato per tutte le operazioni con carrelli elevatori nei settori industriali e nella logistica. Questo pneumatico pieno si distingue per l'elevata capacità di carico nonché per l'eccezionale confort. MAGLIFT offre una straordinaria resistenza alla perforazione che si traduce in una lunga vita dello pneumatico. La struttura rinforzata riduce il rischio di slittamento, mentre la particolare forma del tallone facilita il montaggio sul cerchio.
