

MINEFORCE - Specifiche tecniche

Description

Il MINEFORCE è uno pneumatico a tele diagonali appositamente progettato per i camion da trasporto in attività estrattive all'interno di cave e miniere. Lo pneumatico per autocarri da trasporto ad alte prestazioni MINEFORCE è l'innovativa risposta di BKT alle esigenze poste da ambienti minerari rocciosi, abrasivi e difficili. Presenta un design di battistrada unico con mescole appositamente sviluppate per operazioni di scavo su terreni duri, rocciosi e complessi. L'ampia area di contatto dotata di alette rigide assicura un'usura uniforme del battistrada e un ciclo di vita più lungo.
